Information

A unique property luxury villa, concept design by architect Achille Michelizzi (<http://www.michelizziarchitettura.com>). The architecture of the villa is to intermediate contemporary minimalist building into urban greenery. Together the combination of A. Michelizzi housing project with Kersti Kuus (SMAAB OÜ architecture office) and Gea Veeremäe (Stiil Arhitektuur OÜ interior design office) create a modern fully planned living environment. The house is low energy consumption, with the classification of B. The modern technical solutions guarantee the most comfortable living environment. The pure air exchange is operated by fully automated heat- exchange ventilation device which is connected with each room. The santechnical rooms are finished with most modern and high quality finishing materials, in saunas used only natural materials. Windows and doors are prepared in special factory in Estonia, who gives the best energy efficient products. The telecommunications are with internet over Wi-Fi or desktop computers.
