399 000 €

Information

Halinga post-station was built in the 18th century -one of the oldest in Estonia. The main building of the historical "Postijaama" building complex has not been preserved. But one of the outbuildings has been renovated into a beautiful home. The area of the residential building is approx. 378 m² on two floors - 8 bedrooms, 4 bathrooms, a sauna, 2 kitchens, which are splitted into living and dining rooms and many comfortable sitting areas. Two separate main doors also allow separate use in two parts. The house is sold with tasteful and cozy furnishings.

The building is made of stone, insulated and plastered, with a gap ceiling of concrete panels, and a stone roof.

The property also has a cellar, its own water and local sewage. Electricity 3x32A.

The house was thoroughly renovated in 2011-2013, when the roof was replaced, the windows, doors and floors were insulated and replaced. After that, it was constantly supplemented and updated.

In 2023, new fireplaces and a heated pool as well as a jacuzzi, an outdoor kitchen and a large wood terrace were built. There are terraces on two sides of the house. The spacious yard is well maintained and surrounded by a park-garden with native trees and rock fences, in addition to its own forest.

The location is only 18 km from Pärnu, along the Tallinn-Pärnu highway, you can also enjoy all the summer pleasures in your own backyard.
