Information

Panoramic views of the city of Tartu!

This is a home located on the best views floor of the building, with windows opening to three directions. Thanks to this, sunlight streams in here from morning till evening.

Upon entering the apartment, you step into a spacious hallway with a built-in wardrobe. To the left is the bedroom, and right next to it is the living room with a balcony.

Adjacent to the living room is another bedroom, with windows opening in two directions as well. Next to this bedroom is a separate kitchen and a shower room with a toilet.

The building is managed by an active housing association, which has overseen a thorough renovation of the building. Both water and sewage pipes have been replaced, the heating system upgraded, radiators equipped with heat meters, the facade insulated, a waste house and a secure bicycle storage built.

The apartment is equipped with Telia and Elisa fiber optic cables, providing internet speeds of up to 1Gbit/s up and down.

The new home is only a 10-minute walk from the city center.
