Information

A home with a south-facing balcony has been added to the public listings on the real estate market, and it can be transformed into a 2-room apartment!

This is an extremely spacious home located in the center of the building, which can be purchased with furniture and appliances if desired.

Thanks to the fact that the apartment's walls and ceilings are painted, it's easy and cost-effective to change the color scheme of the rooms.

Daily comfort is ensured by knowing that the apartment comes with a designated parking space near the stairwell and a spacious, warm, and dry storage room in the basement of the building, where there's plenty of room to store bikes as well.

Pedestrian paths connecting to the city and important shops along with service providers are right here.

The apartment is equipped with Telia fiber optic cable, offering internet speeds of up to 1 Gbit/s both down and up.

There is also an option to purchase with an existing lease agreement!

Contact us, ask for more details, and come see the place!
