Additional info

shower, balcony, washing machine, bathtub, furnished kitchen, refrigerator

Information

A bright home with through-apartment layout for sale in a building renovated in 2021. Thanks to its layout, the apartment can easily be given the functionality of a two-room home.

The building has an A energy rating, which may allow for better home loan conditions from banks.

The renovation was carried out under the active management of the homeowners' association in 2021. The renovation loan taken by the association will be fully paid off by 2046. Only the stairwells and storage rooms remain to be updated, and these are planned to be completed without taking on any additional loans.

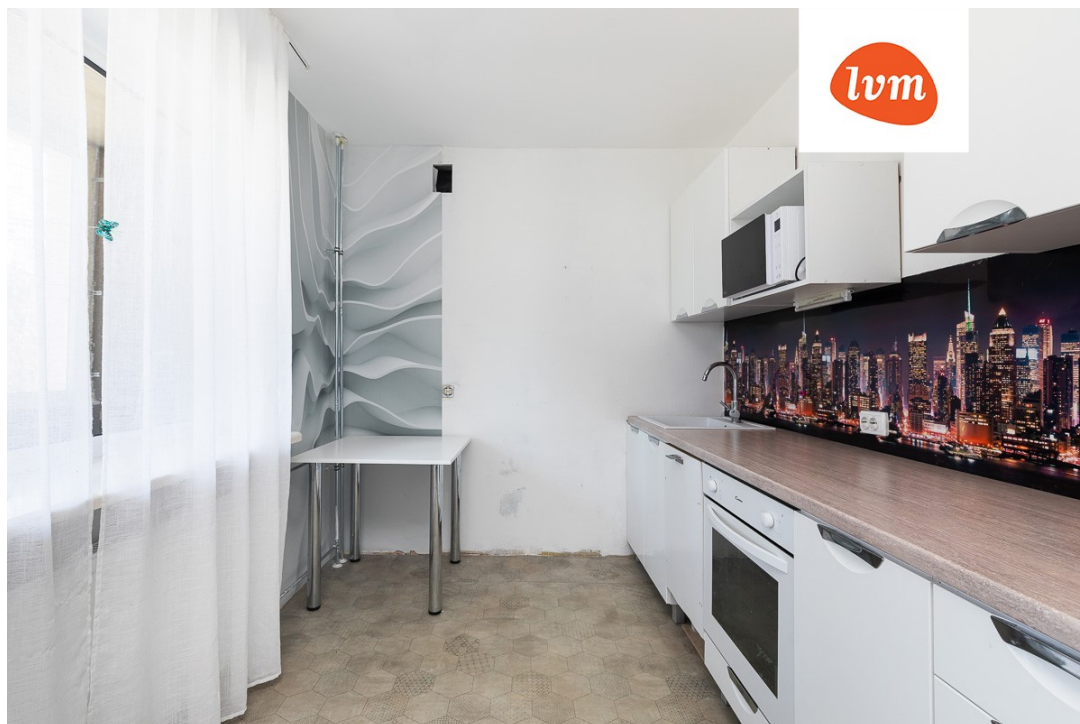

The location is peaceful and private, with surrounding buildings being lower in height, ensuring no direct views into the apartment.

Public transport is conveniently close, with Muru bus stop located right in front of the building. Within 400 meters, you'll find several grocery stores, including Rimi, Selver, Coop, and Maxima. Free parking is available in front of and next to the building.

The apartment is connected to Telia's 1 Gbit/s fiber optic internet, both download and upload.

Get in touch, ask for more info, and come see it for yourself!
